Green Initiatives

We have integrated environmental conservation in all aspects of our planning and operations since 1973. In 2008, PEACH was recognized as "The Best Green Venue" by the Green Hotels of USA and was the only property in Thailand to achieve this title. Offering a supplementary range of green venues, we have also been awarded by the EIA (Environment Impact Assessment) Monitoring Award in recognition of exceptional environment management standards. Since 2006, we have consistently received the ISO 14001, an environmental management certification given to organizations that implement strict policies to safeguard the environment. We recently have been certified with ISO 14001: 2015.
