Essential Facts

Climate
Thailand enjoys a tropical climate with temperatures typically ranging between 19°C and 35°C. Located on a scenic mountainside overlooking the beach, our area benefits from pleasant sea breezes and generally experiences less rainfall. As a result, the weather is typically warm, sunny, and ideal for enjoying outdoor activities throughout most of the year.

Credit Cards
All major credit cards are widely accepted at restaurants, hotels, department stores, and major tourist areas.

Currency
Thailand's currency is the Baht (THB). Notes are in denominations of 20, 50, 100, 500 and 1,000. Coins are in 0.25, 0.50, 1, 2, 5 and 10.

Electricity
Electricity in Thailand is supplied at 220V, 50 Hz. Guests whose devices are not compatible with this voltage may require a converter or adapter. Standard plug types include two-pin (round) and flat blade plugs.

Language
The official language is Thai. English is widely spoken in the MICE and tourism industry – particularly in hotels, meeting venues, and major tourist areas. We have a dynamic multilingual team who can speak English, Thai, Korean, Hindi, Chinese (Cantonese and Mandarin), German, and Russian.

Pattaya City & The Eastern Economic Corridoor
Pattaya has long been a favourite getaway destination for both local residents and visitors to Thailand. Over the years, it has evolved into a thriving city with an ever-expanding range of businesses, services and international communities. While the city continues to grow and modernise, it still retains much of its original charm and seaside tranquillity.

Today, Pattaya plays an important role in Thailand's **Eastern Economic Corridor (EEC)** — the country's flagship economic development zone designed to drive innovation, investment and advanced industries.

Alongside its progress and modern conveniences, Pattaya continues to offer the vibrant energy, multicultural diversity, and welcoming atmosphere that have made it one of Thailand's most beloved coastal cities.

Thailand
Thailand is an exceptional destination for MICE events thanks to its world-class hospitality, great value for money, modern infrastructure, and unique cultural appeal. In addition, renowned cuisine, beautiful landscapes, and diverse leisure activities provide memorable experiences that enhance networking, creativity, and engagement beyond the meeting room.

Thailand Time Zone
Thailand is 7 hours ahead of Greenwich Mean Time (GMT +7).

Addressing Thai People
In Thai culture, it is customary and respectful to address people by placing the word "Khun" before their first name. "Khun" is a polite title used for both men and women and reflects courtesy and respect in everyday conversation. For example, instead of using Mr., Mrs. or Ms., Thais would say Khun Somchai or Khun Ploy. Visitors and foreign guests are encouraged to adopt this simple practice when addressing Thai colleagues, staff, or friends as it demonstrates cultural awareness and helps create warm and respectful interactions.

Thai "Wai"
The wai is both a sign of respect as well as a greeting. It is done by putting 2 hands together like you are going to pray, and bowing your head so that your head touches the tips of your fingers. Respect and courtesy are demonstrated by the height at which the hands are held and how low the head comes down to meet the thumbs of both hands.
